

CATASTROPHIC TRAVEL

Duration: ½ day

Participants: 10 to 50+ people

Goal: live a road-movie... live!

WHAT IS A CATASTROPHIC TRAVEL?

The concept is as much simple as it is surprising. At start, people will think that they are going to a low-interest place, like the Tea Spoon Museum for example, or to meet the inventor of the clothes peg.

But during the travel, the bus' engine starts to leak a worrying white smoke, the train's inspector says that the tickets are not valid, or the hotel is under quarantine because of an invasion of termites, etc.

The participants are therefore invited to enter into our presented theme, through the organisers and their accomplices, to deal now a with very special event: training camp for special agents, crime scene to solve or the secret meeting of mafia families...

Unexpected events and surprise bring pleasure. That's why our incredible concept of Catastrophic Travel will enhance the dynamics of your teams for a long-term. This is a really unusual and fun activity.

BENEFITS
